**STRIP & CLEAN DISCS**

REFERENCE & APPLICATION GUIDE	
Black	
Purple	
Notes	

**Strip and Clean** are unique abrasive tools for mechanical cleaning operation on all materials. Strip and Clean material is made of nylon filament web, resin, and grit that creates an open three-dimensional web that can be used on a wide range of products.

Strong and highly flexible products made from Strip and Clean web have countless applications, but they are most commonly used for rust removal, surface cleaning, and coating removal.

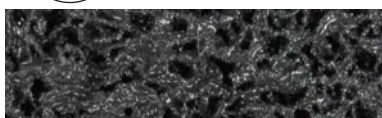

Thanks to their flexibility, Strip and Clean products can adapt to different shapes to match the workpiece surface without damaging geometry.

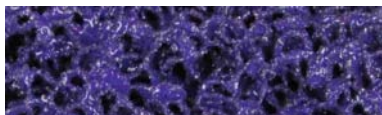

Due to its uniqueness, this material bridges the gap between non-woven abrasives and wire brushes by having characteristics of both in one product.

There are two grades of Strip and Clean materials

**Black** - softer and more flexible, general purpose for most jobs.

**Purple** - less flexible, more durable, more aggressive and faster cutting for tough jobs.

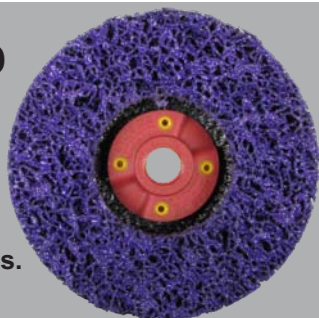

### Strip and Clean Applications

- ☒ WELDING SURFACE PREPARATION
- ☒ WELD AND SPLATTER CLEANING
- ☒ COATING REMOVAL
- ☒ COATED SURFACE PREPARATION
- ☒ RUST REMOVAL
- ☒ DIRT AND CONTAMINATION REMOVAL
- ☒ WORK ON FIBREGLASS
- ☒ STONE AND CEMENT CLEANING
- ☒ SHIP MAINTENANCE
- ☒ DO IT YOURSELF PROJECTS

STRIP AND CLEAN FEATURES	STRIP AND CLEAN BENEFITS
Coarse abrasive	Aggressive stripping and cleaning action
Good balance	No vibration
Depressed centre discs with fibreglass backing	No backing pad required
Quick change option	Reduced disc change time
Three-dimensional web	Constant finish
	Cleaning and fine finishing in one operation
	No loading
	Use on a wide variety of materials
	Use on a variety shapes and surfaces
	Maximum abrasive usage
	Uniform wear with constant performance
	Low noise
	Cool cutting
	Resists smearing

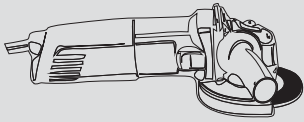

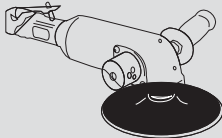

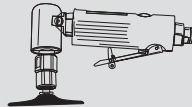

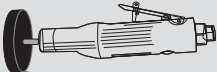

## PATENTED

**5/8-11 THREADED  
INSERT FOR  
FLAP DISCS,  
Available for  
4 1/2", 5" and 6" discs.  
Any backing type.**

**SAFE LOC**

Strip and Clean products are designed for the machine types below:

 <p>Electric operated hand held angle grinders</p>	 <p>Air operated hand held angle grinders</p>	 <p>Right angle die grinders</p>
 <p>Electric or air operated hand held sanders</p>	 <p>Die and pencil grinders</p>	 <p>Drill</p>

## FOR OPERATOR SAFETY

 <p>Follow ANSI and OSHA regulations</p>	 <p>Wear a dust mask</p>	 <p>Wear safety gloves</p>
 <p>Wear safety glasses and ear muffs</p>	 <p>Do not exceed operating speed</p>	 <p>Read instructions</p>

## BLACK

Flexible, general purpose Strip and Clean for most jobs

Recommended use on:		All Materials				
Size inches	Size mm	Type	Item No.	Max RPM	Qty Pkg	
2	50	"R"	SC20BLKR	18,000	10	
3	75	"R"	SC30BLKR	15,000	5	
4 x 1/2 x 1/4	100 x 12 x 6	Arbor	SC4012BLK	11,000	5	
4 x 1 x 1/4	100 x 25 x 6	Arbor	SC4025BLK	11,000	5	
4 1/2 x 7/8	115 x 22	27F	SC45DCBLK	11,000	5	
4 1/2 x 5/8-11	115 x 5/8-11	27F	SC45DCBLKS	11,000	5	
5 x 7/8	125 x 22	27F	SC50DCBLK	9,800	5	
5 x 5/8-11	125 x 5/8-11	27F	SC50DCBLKS	9,800	5	

• For Type "R" holders please see accessories.

- Type "R" Discs have quick change attachment. Discs with 1/4" holes are used in conjunction with a special spindle and can be mounted on Power tools.
- Depressed Centre Discs are bonded to a rigid fiberglass backing. It is more aggressive and has a high cut rate and allows for higher operating pressure.

## PURPLE

Less flexible, more durable, aggressive and faster cutting Strip and Clean for tough jobs.

Recommended use on:		All Materials				
Size inches	Size mm	Type	Item No.	Max RPM	Qty Pkg	
2	50	"R"	SC20PURR	18,000	10	
3	75	"R"	SC30PURR	15,000	5	
4 x 1/2 x 1/4	100 x 12 x 6	Arbor	SC4012PUR	11,000	5	
4 x 1 x 1/4	100 x 25 x 6	Arbor	SC4025PUR	11,000	5	
4 1/2 x 7/8	115 x 22	27F	SC45DCPUR	11,000	5	
4 1/2 x 5/8-11	115 x 5/8-11	27F	SC45DCPURS	11,000	5	
5 x 7/8	125 x 22	27F	SC50DCPUR	9,800	5	
5 x 5/8-11	125 x 5/8-11	27F	SC50DCPURS	9,800	5	

• For Type "R" holders please see accessories.

- Type "R" Discs have quick change attachment. Discs with 1/4" holes are used in conjunction with a special spindle and can be mounted on Power tools.
- Depressed Centre Discs are bonded to a rigid fiberglass backing. It is more aggressive and has a high cut rate and allows for higher operating pressure.
